UNIVERSITY

Memorandum

To: Dr. Scheck, Provost and Vice President for Academic Affairs
Danielle Ambrose, Interim Registrar

From: Dr. Stonecipher, Graduate Programs Director 

Date: September 30, 2014

Re: Graduate policy proposal: creating a maximum number of non-admit credits that are allowed in a graduate program

Current policy: Effective fall 2011: allows a maximum number of 15 credits of non-admit graduate coursework to be applied to an endorsement or degree program

Proposal: include specializations and certificates in this policy

Rationale: we added the categories of specialization and certificate since the policy was approved and these programs should be included in the original policy regarding limitations on non-admit credits.

Policy review process:

If approved, this policy will be effective fall 2014.

Note: The Graduate Studies Committee reviewed the policy update on September 23, 2014, and approved it through a follow up email.

Approved 9/30/2014
