

10/23/19 Faculty Senate Report from Interim Provost Winningham

Congratulations to Dr. Elisa Maroney and the Interpreting team for their successful grant yielding \$1.25M over 5 years for Project HIVE - preparing interpreters for educational settings.

Congratulations to Drs. Maria Peterson-Ahmad and Katrina Hovey for their sub-award with a large grant in partnership with Oregon State University faculty working in the area of adaptive physical education. The full grant amount is also \$1.25M over 5 years and will support students at WOU.

Congratulations to Dr. Emily Vala-Haynes as she was recognized by the GNAC athletic conference as the 2017-2018 outstanding faculty mentor for student athletes. One student-athlete was so grateful that Dr. Vala-Haynes would cheer the athletes on during their 7:30am practice. These student – faculty connections make a difference.

October 31 is the deadline for program assessment reports. These reports describe assessment activities for which your program engaged during the 2017-18 academic year and are an opportunity to reflect on how students accomplished program learning outcomes and possible decisions for continuous improvement. The report templates and instructions for uploading them into TK20 are available at the Academic Effectiveness website.
