

Campus Assessment Update

Presentation to the WOU Faculty Senate

Nov. 24, 2020

Michael Baltzley

Associate Provost for Academic Effectiveness

Goals of proposed calendar modification

Find time to:

- 1) Allow **faculty to focus on assessment**
- 2) Provide **professional development** opportunities
- 3) Dedicate a day every Winter term to **cultural competency training**
- 4) **Reduce term-to-term variation** in the number of instructional hours per course
- 5) **Promote Academic Excellence Showcase** by dedicating an academic calendar day to the event

What did faculty find time to do last year?

In the 2019-20 academic year, despite it's atypical ending,
WOU Faculty:

- Aligned the Bachelors of Music Core with the General Education Program
- Aligned the Baccalaureate of Applied Science Core with the General Education Program
- Revised the Foundational Skills General Education Learning Outcome rubric and assessed First Year Seminars
- Revised Core Content Knowledge Graduate Learning Outcome rubric
- Submitted 41 Annual Program Assessment Reports
- Seven Programs worked on the 7-year Program Review Reports

What do we need to work on?

Course Goals

- 16% of Fall 2020 term courses do not have Course Goals in our curriculum system (down from 18% in September)
 - All academic divisions have at least one Fall 2020 course with missing course goals
- 16% of Winter 2021 term courses do not have Course Goals in our curriculum system

Program Assessment

- 25% of Programs did not submit 2018-19 Program Assessment Reports
- 58% of Programs did not submit 2019-20 Program Assessment Reports by the Oct. 31, 2020 deadline

What do we need to work on?

Last year I used a rubric to assess our assessment practices

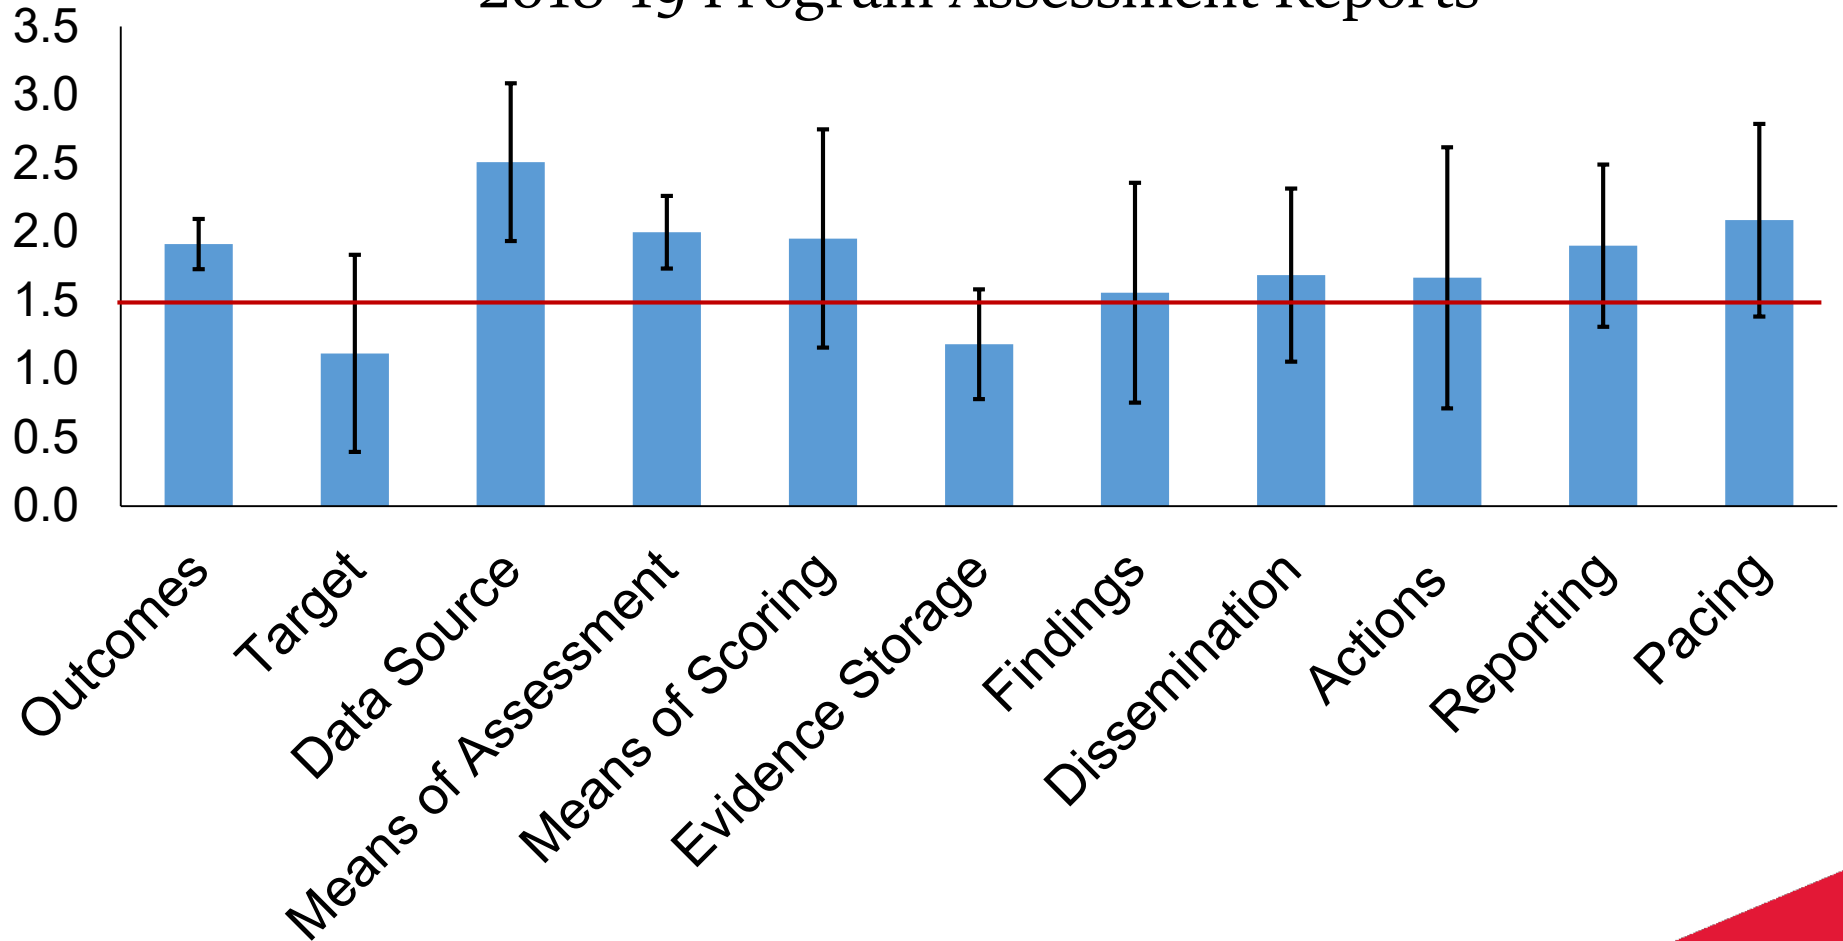

- 11 categories with 3 levels

Category	Benchmark	Satisfactory	Exemplary
Data Source	Data is collected, but not at a consistent point in the program	Data collected includes work performed near the end of the academic program	Data is collected from a culminating experience shared by all students
	Data collection is post-hoc rather than planned	Sample is from student representing mode of expected performance	Sampling is random (for larger programs) or all majors are included (<10 grads per year)
