**Presented by international child's right activist
Professor Warren Binford, Willamette University College of Law**

International children's rights expert Warren Binford shares the conditions she and her colleagues found at the Clint Border Patrol Facility outside of El Paso, Texas, in June 2019. This lecture includes powerful quotations from the children's sworn declarations to ensure that their stories are heard and—more importantly—**how the average U.S. citizen can take action.**
